## Outdoor Infotainment

For outside daytime events and digital signage such as movies in the park, speeches, concerts and athletics, high-bright, quick-install Planar Luminate Pro Series LED video walls deliver comfortable, seamless viewing from as close as 14 feet.

## Weatherproof

The displays feature a dust-tight enclosure to protect the LED display in harsh outdoor conditions, earning them an IP65 Ingress Protection Rating.

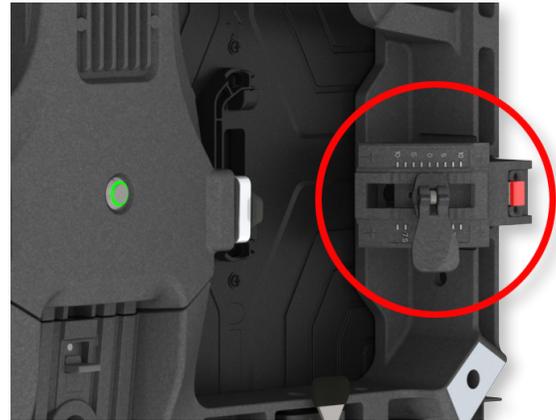

## Bright in the Light

The displays are suitable for daylight applications offering up to 4,500-nit brightness, ideal for sports, concerts, cinema and digital signage even in direct sunlight.

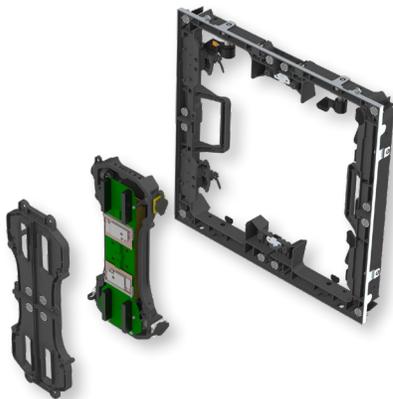

## Corner Protection

Built-in, 90-degree, retractable guards help avoid damage to LEDs near the corners during setup, teardown and transportation.

## Curve Capable

On-board angle blocks enable connected cabinets to effortlessly, and securely, form convex or concave video walls with up to +/-10 degrees of curve.

## Compact Components

All electronics are contained in single compartment on the back of the cabinet. The electronics compartment can be accessed from the front or back and easily removed.

## Front or Rear Service

When in use, the display's modular design offers full front or rear access to electronics, enabling more installation options and making any needed maintenance and service simpler.
